

Long Island Commission for Aquifer Protection

Dear Water Authority of Great Neck North Customer,

It is my pleasure to share some exciting news on behalf of the Long Island Commission for Aquifer Protection (LICAP).

The Water Authority of Great Neck North community has been selected to participate in our Smart Sprinkler System Lottery! LICAP will be giving away a limited number of **FREE** Smart Irrigation Controllers and providing rebates of up to \$250 for installation!

These Smart Sprinklers Systems can save customers thousands of dollars on their water bills over a lifetime, and help protect the environment by reducing stress on Long Island's sole source aquifer.

To enter the Smart Sprinkler Lottery just fill out the attached form and send to LICAP at **P.O. Box 38, Oakdale, NY 11769** or email the form to **LICAP@SCWA.com**. You can also visit our website for easy e-signup: www.LIAquiferCommission.com.

The Long Island Commission for Aquifer Protection is a bi-county entity formed to address both quality and quantity issues facing Long Island's aquifer system, and to advocate for a coordinated, regional approach to groundwater resources management.

We hope you participate in this unique opportunity. Please see the attached materials for lottery eligibility and participation requirements.

The Water Authority of Great Neck North lottery will take place on **April 26, 2018** at **6 PM** at the Great Neck House, located at 14 Arrandale Avenue, Great Neck, NY 11023. We hope to see you there!

Sincerely,

Stan Carey
Chairman,
Long Island Commission for Aquifer Protection

Protect our Island's Water, Take the Water Wise Pledge

Join in pledging to protect and conserve Long Island's drinking water

I pledge to conserve water. I understand that Long Island's water is a valuable resource and I commit to preserve our water by making small changes in my daily life to reduce my water use. Conserving water can be rewarding and cost effective, and small changes can make a huge difference. Here are a few things I can do to help save water:

- Check for and repair dripping faucets and leaking toilets throughout the home.
- Inspect my landscape irrigation system regularly for leaks and malfunctioning equipment.
- Turn off the faucet when brushing teeth or shaving.
- Operate the washing machine and dishwasher with full loads only.
- Install low flow faucet aerators, flow restrictors, toilet tank displacement bags, and low flow showerheads.
- Turn the sprinkler off when it's raining. All automatic underground lawn sprinkler systems must be equipped with a working rain sensor.
- Water my lawn and gardens in the early morning or late evening to avoid unnecessary evaporation or wind drift.
- Mulch my landscape and leave grass clippings on my lawn to help retain moisture.
- Use a timer to turn sprinklers off and avoid overwatering.
- Use a broom (not a hose) to clean driveways and sidewalks, as washing sidewalks and driveways are prohibited at all times.
- Landscape your property using native vegetation and drought tolerant grasses that require little water or only rainfall.
- Get a rain barrel and use captured rain water for car washing, lawn watering, etc.
- Utilize hoses that have automatic shutoff nozzles.
- If your water bills are higher than normal, a free leak inspection is offered. Please call 516-487-7973 to schedule.

Become Water Wise so you can protect our Environment and Conserve Water.

Make the Water Wise Pledge Today

LICAP SMART SPRINKLER SYSTEM LOTTERY

What is a Smart Sprinkler System?

A Smart Sprinkler System is an irrigation controller that can be operated through a Smartphone, tablet or laptop. The smart controller manages the entire irrigation process of a home. Through Wi-Fi the controller connects to local weather stations and various sensors throughout the irrigation system monitoring precipitation, soil temperatures and evapotranspiration rates. Each zone in the irrigation system can be programmed to specify the grass type, number of shrubs/plants, and shade or sun levels to prevent oversaturation and runoff.

Standard clock sprinkler timers are often set at the beginning of the season and forgotten about until the systems are shut off in the winter; Smart controllers are designed to remove all of the human error involved in managing a home's irrigation system.

Award Summary

SMART SPRINKLER SYSTEM LOTTERY

OVERVIEW

EPA reports have estimated that more than 50 percent of commercial and residential irrigation water use goes to waste due to evaporation, improper system design or overwatering. Since irrigation represents the most significant water use on Long Island, reducing watering inefficiencies will reduce water waste and further conservation efforts. The purpose of a Smart Sprinkler System is to increase the efficiency of an irrigation system. A Smart Sprinkler System is an irrigation controller operated through a smartphone, tablet or laptop. The smart controller manages the entire irrigation process of a home. By tying into the homeowners Wi-Fi network, the controller connects to local weather stations and various sensors throughout the irrigation system monitoring precipitation, soil temperatures and evapotranspiration rates. Each zone in the irrigation system can be programmed to specify the grass type, number of shrubs/plants, and shade or sun levels to prevent oversaturation and runoff.

the award will cover the cost of the irrigation system and installation.

Eligibility and Participation Requirements

To be eligible for the Irrigation Audit award program, a homeowner must be a resident of Nassau or Suffolk County. In addition:

1. Participant must be a Suffolk County Water Authority, Long Beach Water Department, or Water Authority of Great Neck North customer and the property owner of the irrigation system.
2. Preference will be given to residents of the following areas: Greenport, Sayville, Long Beach and Great Neck. Additional controllers will be provided to surrounding communities while supplies last.
3. The applicant must have an account in good standing with their water district.
4. The participant must have a fully functioning irrigation system that is run by a working timer/controller.
5. The Smart Sprinkler Systems lottery will take place on April 26, 2018 at the Great Neck House, located at 14 Arrandale Ave, Great Neck, NY 11023.
6. The participant agrees to leave the smart watering system in place for a minimum of three years provided that ownership of the property does not change.
7. The participant agrees to allow LICAP to inspect the smart controller and irrigation system between 8:30 a.m. and 5:30 p.m. on weekdays, from time to time, upon reasonable notice, within the first three years after its installation.

8. The participant agrees to allow the (LICAP) to contact him or her for the purpose of conducting program research and agrees to participate in the customer satisfaction poll at the conclusion of the program.
9. The participant agrees to allow LICAP access to its water usage records with the Water District.
10. The participant must have a property size between ¼ acre and up to 2 acres
11. The participant must have a maximum of 12 irrigation zones
12. The participant must have a minimum annual water use of 100,000 gallons and maximum annual water use of 300,000 gallons
13. Customer agrees to install smart sprinkler system within ten (10) business days of receipt.
14. The Smart Sprinkler System will replace existing irrigation timer.
15. Customer responsible for finding irrigation professional to replace existing controller (see attached list). LICAP will reimburse cost of installation up to \$250. Customer will provide receipt of services in order to receive rebate.
16. Complete and submit the application by the deadline date as indicated below

Awards shall not be made for commercial developments, for-profit institutions or business.

TIMING

The application and documentation sufficient for a project to be considered for smart sprinkler system lottery must be submitted to LICAP no later than 5:00 p.m., April 13, 2018. Applications that are submitted without all required information and requested documents may be deemed not acceptable and may not be processed. Applications must be submitted to Licap@scwa.com.

APPLICATIONS

Applicants who would like to be considered for the smart sprinkler system lottery must submit an application and the following documentation by 5:00 p.m., April 13, 2018:

Qualifying installations:

- Participant must be a customer of the Suffolk County Water Authority, Long Beach Water Department or Water Authority of Great Neck North and the property owner of the installation site.
- The applicant must have an account in good standing with their Water District.
- The participant must have a fully functioning irrigation system that is run by a working timer/controller.
- Site must have a well maintained irrigation system compatible with a smart controller. (e.g., no line breaks, pressure issues, broken spray heads, etc.)
- Site must have a maximum of 12 zones.
- Controller must be installed and programmed per manufacturer's directions.
- Controller must be replacing an existing conventional controller.
- Device must be installed within 10 business days of receiving controller.

Conditions:

- The participant agrees to leave the "smart controller" in place for a minimum of three years provided that ownership of the property does not change.
- The participant agrees to allow LICAP to inspect the smart controller and irrigation system between 8:30 a.m. and 5:30 p.m. on weekdays, from time to time, upon reasonable notice, within the first three years after its installation.
- The participant agrees to allow the LICAP to contact him or her for the purpose of conducting program research and agrees to participate in the customer satisfaction poll at the conclusion of the program.
- The participant agrees to allow LICAP access to its water usage records with the Water District.
- The participant has read and agrees to the conditions set forth in the following disclaimer:

Neither LICAP the Water Districts nor its contractors or agents make any representation or warranty regarding the irrigation controller utilized in this Smart Sprinkler System Lottery Program. By participating in the lottery program, you waive and release the Water District, LICAP and its contractors and agents from all claims and causes of action arising out of the purchase, installation or use of the smart controller purchased in connection with the Smart Sprinkler System Lottery Program. Any claim you have based upon defect or failure of the performance of the smart controller used in conjunction with this lottery program should be pursued with the controller's manufacturer.

Application Instructions:

- Complete all sections of the smart sprinkler system lottery application.
- Applicant must sign and date attached Water Wise Pledge.
- If you agree with the terms and conditions of the Lottery Program, sign and date this application, or email to Licap@scwa.com.
- Submit the completed application to the address below. Applications will be processed in the order of receipt. Customers have 10 business days, from the date of LICAP lottery to install the new irrigation control system.
- The current smart controller installation rebate is maximum \$250 per property location. Mail the receipt of installation to LICAP at the address below. The original receipt must show installation of controller.
- Retain a copy of the sales receipt for your records. The rebate program is not responsible for materials lost by mail.
- You will receive a rebate check within 90 days.
